SUPPORTING SCHOOLS AND EDUCATIONAL INSTITUTIONS

Service offer

For the attention of School Management

Communication · School management · Digital presence

Dear Sir or Madam,

Bracadabra Studios helps schools communicate effectively, streamline administration and strengthen their online presence. Services are available individually or as a coordinated offer shaped around your priorities.

01 **School communication & media**

We plan consistent communications, with up to three posts each week in French and English. Short videos and timely content bring school life and key dates into focus, helping you stay connected with families and support enrolment campaigns.

02 **EduKamer.com · School administration**

EduKamer brings student results, report cards, attendance and accounting together in one platform. It also supports fee payments through available mobile money services, including Orange Money and MTN Mobile Money.

03 **Website & private school network**

We create a modern website that clearly presents your school and configure a private school network. Together, these services can strengthen your institution’s profile and help you reach families outside your city and abroad.

We offer a complimentary communications audit and a live EduKamer demonstration. Scope, timeline and budget can then be tailored to your needs.

We welcome the opportunity to speak with your team and present the solutions best suited to your institution.

To arrange a discussion: +237 695 53 99 89 · info@bracadabrastudios.com · edukamer.com

Yours faithfully,
Commercial Team | Bracadabra Studios
